Mission

DinoDoodHQ wants to create a friendly ecosystem and a homebase for the doods. DinoDoods is a space to provide the basics to NFTs, research tips, and to stay safe in Web3.

Everyone is welcome in DinoDoods, from hatchings wanting to be T-rexes or just genuine art lovers, we want to help create the best path for all to succeed.

With this there is also opportunity to grow close bonds with people along the way. Our team is composed of artists, nerds, entrepreneurs, and gamers! With many diverse personalities throughout our team, we want to connect with people of similar and outside interest while growing our community.
